Therapist

My name is Shawn Williams, MA, LPC-Intern and I am a Licensed Professional Counselor Intern in the State of Texas. I provide mental health care services at Lighthouse Christian Counseling under the supervision of Dr. Dwane Allen, LPC – S. I earned my Masters degree in Counseling at LeTourneau University and I am currently pursuing my Doctorate in Clinical Psychology at California Southern University. I work with clients with substance abuse, anxiety, mood disorders and marriage and family issues.

Benefits and Risks of Therapy

Counseling is both an art and a science. Many individuals show great benefit from counseling, although results cannot be guaranteed. People come into therapy with various problems that cause internal distress and relational issues. Often, growth may not occur until you experience and confront uncomfortable issues that may make you to feel sadness, sorrow, anxiety, or pain. Sometimes changes made during the therapy process affect other relationships such as family, friends or in the workplace. The success of the therapeutic relationship between you and your therapist depends on the quality of mutual efforts.

Client involvement- Much of the success in achieving goals in therapy rely on you to take responsibility for certain things. Keeping all scheduled appointments and being on time is very important. Being open, honest and active in sessions is essential also. Additional effort between sessions such as completing assignments and thinking through or being aware of thoughts and behaviors will also affect results. Please realize you are responsible for lifestyle choices/changes that may result from therapy.

Counselor involvement- An initial assessment at the first session will be conducted, along with an ongoing assessment of the nature of your concerns and problems. A therapy plan including goals and the processes for achieving them will be developed and discussed with you.

Treatment

Our foundational belief is that Biblical principles speak to meaning, purpose and change needed in order to achieve healthy relationships with others, God and also to the individual themselves. We use Christian principles in the therapeutic process as a source for real personal growth always in a non-coercive manner. We also integrate proven psychological theories in the therapeutic relationship. Your counselor may use various forms of theories and therapies with you including those involving the teaching of principles for practical living, modeling, skills training, restructuring and problem solving.

Alternative Treatment- There are a variety of other services available to you that work in conjunction with, or in place of counseling. We can assist you in determining the applicability to alternative treatments if needed.

Length of Therapy- The number of sessions depends on many factors and will be assessed and discussed with you. Therapy sessions are 45-50 minutes in length. Therapy will be terminated when goals have been achieved and by mutual consent. An exit session, or termination interview will be conducted at the end of therapy. You have the right to terminate therapy at any time.

Testing- Sometimes in order to better understand issues or to assist in treatment, psychological tests may be utilized. The purpose of these tests will be discussed in advance and results shared with you. Fees for testing are separate from regular sessions.

Consumer Information- An individual who wishes to file a complaint against a Licensed Professional Counselor may write to: Complaints Management and Investigative Section; P.O. Box 141369; Austin, Texas 78714-1369; or call 1-800-942-5540 to request the appropriate form or obtain more information.

Confidentiality-Initial

Discussions between a therapist and a client are confidential. No information will be released without the client’s written consent unless mandated by law.
